

Discretion in Dress

—It's no trivial task for a man to get the precisely right apparel touch to suit his person and his personality. There is a type of man who should always dress quietly and unobtrusively—another type of man who needs a dash of the extreme to complete his toilet. Both types and all the many in between, find immeasurable clothes content in the lines we are showing for the fall season.

Oma Ora Conway, class of 1916, Bryan High School, holds an important position as teacher in South Texas. Her native ability, her undaunted determination, her splendid training in the Bryan High School—these all combine to render her success a foregone conclusion.

"The teacher who is cheerful but not dignified, kind but not to slackness, and patient without over-indulgence, is wanted in many school rooms."—Ohio Educational Monthly.

That quotation is a splendid picture of the right kind of teachers, the kind we want in the Bryan schools. While applicants are numerous, nevertheless it remains true the kind of teachers schools need are not so plentiful as one might think to be the case.

Car behind time. Children who ride in it coming in just after everything had quieted down and work had begun. Such, in brief, is the story of the early morning at school and of the college car.

Our commercial class is at work with full sets for bookkeeping and all kinds of practical business. Bryan High School is trying to do its full duty to the young people.

A score of 21 to 0 over Navasota is a pretty good start on the athletic games for the year. Of course the pupils are proud of that record.

HINTS FOR THE HOUSEHOLD.

Add Teaspoonful of Sugar to Water for Basting Meat.

Bread should not be put into a too hot oven. It should not brown for the first ten minutes, and then only gradually.

When cleaning saucepans in the sink there should be a board in the bottom of the sink to stand the pans on.

Try rubbing the silver every day with a dry flannel rag; it will not have to be cleaned so often.

Basting meat: A spoonful of sugar added to the water for basting meat will give it a rich brown color and the flavor will be improved.

If the teapot smells musty when you put it away, put a piece of sugar in it and it will be sweet when you come to use it.

The secret of a well-packed trunk is to pack it so closely that nothing can move. If this rule is followed, frocks will not be mussed.

Minister: "Young man, do you know the price of the pursuit of pleasure?"
Black Sheep: "Yes, sir. Thirty cents for the first mile and 10 cents for every mile after that."—Harvard Lampoon.
